

DEVIN GRANT II

Junior Software Developer | React, JavaScript, Node.js, Express, SQL

+1-(734)-985-5911 @dj4096@icloud.com <https://dgrantii.github.io> Poolville, Texas

SUMMARY

Junior Front-End / Full-Stack Developer with experience building React, Node.js, Express, and MySQL applications. Developed role-based authentication systems REST APIs, inventory management software, and responsive web applications. Strong foundation in JavaScript, SQL, data structures, and software engineering principles

SOFTWARE DEVELOPER PROJECTS

Inventory Management System

React, Node.js, Express, MySQL, Bootstrap, JWT

- Designed and deployed a full-stack inventory management application supporting role-based access control and inventory tracking.
- Migrated IMS frontend from 12-page vanilla JS (~3.3K LOC) to React SPA (~2.2K LOC, -32%) with shared layout, React Router, and centralized auth/API layer.
- Developed secure JWT authentication and 3-tier RBAC
- Engineered 15+ REST API endpoints and 20+ Jest/Supertest integration tests.
- Delivered dashboards for aging manifests (>7 days), suspended adjustments, and monthly shrink with privileged/admin-only adjustment and admin item/manifest flows.
- Repository Link: <https://github.com/DGrantII/IMS>

Shootin' Shots Photography

React, TypeScript, GitHub Actions, GitHub Pages, SCSS

- Designed and deployed a single-page portfolio site for a local photography business with scroll-triggered reveals and staggered image gallery.
- Optimized discoverability and hosting: SEO/Open Graph meta tags, lazy-loaded gallery images, custom 404.html, and GitHub Pages deployment. (*GitHub Pages, Web Performance, SEO*)
- Built responsive image pipeline (WebP srcset, resized fallbacks); improved Lighthouse performance 83 → 100 and reduced asset payload ~95 MB → ~5.8 MB (~94%).

PROFESSIONAL EXPERIENCE

IT Student Helpdesk

Concordia University Ann Arbor

09/2021 - 05/2022 Ann Arbor, MI

- Diagnosed and resolved 20+ technical support tickets involving Windows, macOS, networking, and university systems.
- Collaborated with system administrators to investigate and resolve software and account-access issues.
- Documented troubleshooting procedures and ticket resolutions using version-controlled documentation practices.

TRAINING / COURSES

Certified Front End Developer

Certificate from w3Schools - 2024

Learn React Course - Certificate of Completion

Certificate from Codecademy - 2025

SKILLS

Languages

JavaScript (ES6+), HTML5, CSS3, SQL

Frameworks / Libraries

TypeScript, React, React Router, Bootstrap 4, jQuery

Backend / Tools

Node.js, Express, MySQL, REST APIs, Git, GitHub, Axios, Jest

Other

Responsive UI, Agile, Unit Testing, Responsive Design, React Hooks, Data Structures, Algorithms

EDUCATION

B.S. Information Technology (Web & Mobile Programming)

Concordia University Ann Arbor / Liberty University - Online

GPA

3.96 / 4.0

08/2021 - 05/2026

PROFESSIONAL EXPERIENCE

Warehouse Specialist

Best Buy

📅 08/2023 - Present 📍 Weatherford, TX

- Achieved a 98% order completion rate within 30 minutes by streamlining pick/pack workflows and prioritizing time-sensitive orders.
- **Key transferable skills:** attention to detail, data accuracy, process optimization, cross-functional communication, time management, and working under SLA constraints.
